

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

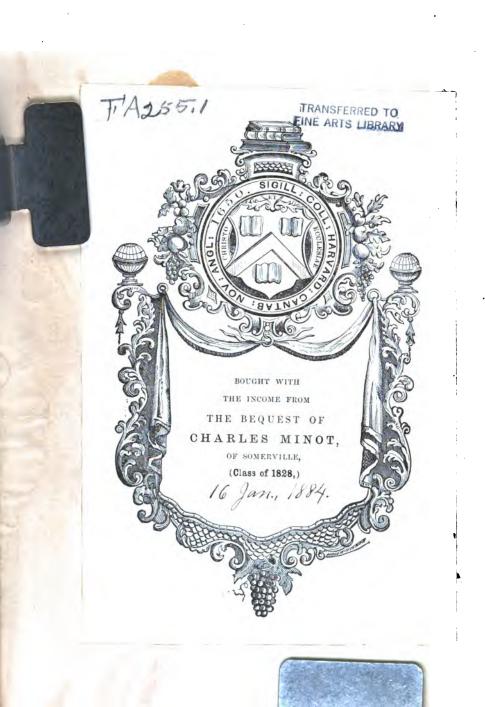

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. Entered according to Act of Congress, in the Year 1881, by Chas. S. Farrar, in the Office of Librarian of Congress, at Washington.

Preface to Second Edition.

The first edition of these lessons having become exhausted, it was deemed wise to make the work more complete, in a second edition, by adding a third part, devoted to the History of Architecture. The whole has been carefully revised, and it is hoped, with considerable improvement.

Influenced by a large number of letters of enquiry, received during the last year, I will offer the following

PRACTICAL SUGGESTIONS.

Private possession of, at least, a few books, on the subject in hand, is of great advantage to the student.

- 1. Some good elementary work, as D'Anvers,' or DeForest's Elementary History of Art, or Radcliffe's Schools of Painting, and, for ready reference at all times, Clement's Handbook of Sculptors, Painters, etc.; hence references to these are omitted in this edition.
- 2. If only one higher work can be afforded, let it be Luebke's Outlines of the History of Art.
- 3. · If two higher works can be afforded, let these be Luebke's History of Sculpture, and the Kugler Handbooks of Painting—last edition; and if to these could be added the new History of Painting by Messrs. Woltmann and Woermann, the equipment would be excellent, indeed.

Good photographs of the masterpieces of art, when examined in connection with reading, are almost as valuable as actual visits among the originals. A full portfolio is indispensable to every class or club of non-professional readers.

MILWAUKEE, Sept. 1881.

PREFACE.

The following scheme for a branch of historical study has grown out of the actual experience of guiding large classes of students in the history of art; and, printed on separate lesson-slips it has already found considerable appreciation as a convenient instrument for the use of a non-circulating library.

It is believed that the best text-book for the study of any history is but a syllabus; the study of history, as well as of science, in order to result in solid edification, must involve the characteristics of real investigation, compelling the use of the judgment at every step. Especially is this true, at present, in the History of Art, where good sources of information and criticism are so various and even contradictory.

The catalogue of works referred to, purposely embraces elementary, as well as the more exhaustive in history and criticism.

PART THIRD.

History of Architecture.

I.—TECHNICAL TERMS.

Note.—For intelligent study of even the history of this branch of the fine arts, the principal technical terms must be in mind as the most familiar language. This lesson should not only be learned, but frequently reviewed, applied to convenient buildings, and illustrated with pen or pencil, however rude the drawing.

- 1. Definition of Architecture; the three principal elements of architectural design in any building.
- a. Fitness and convenience for the purposes required.
- FERGUSSON, Hist. Arch., Vol. 1, pp. 10-6.

 LEEDS, Arch. Orders, pp. 1-2.

 GWILT, Enc. Arch. pp. 795-7.

 ENCYCLOPÆDIAS, especially Enc. Brit.,

 Ninth Edition.

 VITRUVIUS, (Gwilt's) pp. 9-10.

 GARBETT, Arch. Design, pp. 1-8.

 RUSKIN, Stones of Venice, Vol. 1, pp. 51-5.

b. Artistic construction, or the arrangement and proportion of parts producing the most stately and ornamental effect consistent with the purposes of the building.

FERGUSSON, Hist. Arch., Vol. 1, pp. 14-31, 39-47. VITRUVIUS, (Gwilt's), pp. 9-10, 63-7, 72-8, 134-5. Garbett, Arch. Design, pp. 22-30, 46-58, 76-80, 91-7, 120-5, 131-5.

Ruskin, Stones of Venice, Vol. 2, pp. 41-2, 133-42; Lect. Arch., pp. 89-114,

ENCYCLOPÆDIAS.

c. Decoration, or the application of ornaments most harmonious with the construction and appropriate to the purposes of the building.

FERGUSSON, Hist. Arch., Vol. 1, pp. 31-5. VITRUVIUS, (Gwilt's), pp. 9-12; Enc. Arch., pp. 800-3. GARBETT, Arch. Design, pp. 10-22. Ruskin, Stones of Venice, Vol. 1, pp. 39-82, 433-5.

2. Stories or floors; basement, ground story, first story, second, etc. Entresol, clerestory, attic and its parts (gable or pediment.)

Gwilt, Enc. Arch. Nicholson, Enc. Arch. , PARKER, Glos. Arch. FAIRHOLT, Dict. Terms in Art.

3. Constructive ornaments*; horizontal reliefs or courses marking on the external walls the divisions between the successive stories, etc.; ground table, dado

^{*}Note.-Mechanical construction requires only a plain wall.

and surbase or water table; string course, corbel table, etc.

GWILT, Enc. Arch. NICHOLSON, Enc. Arch. PARKER, Glos. Arch. FAIRHOLT, Dict. Terms in Art.

SMITH, Gothic and Renaissance Architecture.
Ruskin, Stones of Venice, Vol. 1, pp. 56-46.

4. Constructive ornaments: niche, canopy, boss, vaulting shaft and rib; antifixa, bracket, corbel and mullion.
